

BA-1000

Appointment Reminder System

\$1274.00

Suggested List

Benefits:

- 1- Reduces "NO SHOWS" by up to 40%.
- 2- Frees up valuable office personnel to do more productive tasks.
- 3- Works after office hours when patients are more likely to be home.
- 4- Redials customers that were not home earlier.

The BA-1000 is an automatic dialer system that will save you hundreds of hours every month. The system will call your patients and will remind them of their upcoming appointment. It will provide the name, date, and time of their appointment. Best of all, the BA-1000 keeps working even after the office closes and you don't have to pay any overtime! The BA-1000 will efficiently reduce the number of NO SHOWS. The question is, can you afford to be without the BA-1000?

Features:

- Clock Control allows automatic dialing from 9am till 9pm., Monday through Sunday. It works through lunch and after the office is closed.
- Allows personalized message to be delivered to each patient with, name, date, and time of each appointment.
- If line is BUSY, will automatically call back in 15 minutes to make sure it gets in touch with patient.
- Adjustable redials allow the system to redial NO ANSWER conditions, from 0 to unlimited. This insures that you can get a hold of those hard to reach patients.
- Optionally allows the patient to leave information for the office if needed.
- Multi-lingual capability allows the system to be used in ethnically diverse areas.
- Stand alone operation. No messy computer interface problems to deal with.
- One Year Limited Warranty.
